

V3 Nutritional System

The V3, Vital 3 System, is a combination of carefully formulated products that enhance the body's overall performance and wellness.

PhytoLife, Mistify and ProArgi-9+ contain pure ingredients, a strategically balanced supply of nutrition, supporting optimal function of mind and body, whilst enhancing stamina and endurance.

It is through these products that you will find the long-term health enhancement you seek to live a vibrant life.

Mistify is a liquid food supplement, which contains vitamin B6, Açai Berry, and Green Tea extract. This extraordinary supplement is rich in flavour, and rich in antioxidants, a delicious blend of fruit and berry extracts and concentrates, including grape, blueberry, raspberry, cranberry, bilberry, and pomegranate.

ProArgi-9+ is Synergy's premier health enhancement product. Based on science that identified Nitric Oxide as a signalling molecule in the cardiovascular system and awarded the Nobel Prize of Medicine in 1998. The primary ingredient is L-arginine, a compound that produces Nitric Oxide in the body, causing vasodilation of blood vessels and may help with cardiovascular health. ProArgi-9+ is being patented by Synergy for its success in reducing cardiovascular disease and inhibiting myeloperoxidase, helping the reduction in oxidation of LDL cholesterol (bad cholesterol).

Synergy's PhytoLife is a rich combination of chlorophyllin (sodium copper chlorophyllin) and peppermint oil. With quality in every drop, the peppermint oil found in PhytoLife contributes to normal digestive function and helps turn ordinary water into a great tasting drink that you can enjoy throughout the day. This, along with the fresh taste and liquid form, makes PhytoLife a great companion to your food supplement regime.

BENEFITS

- Taken together, these 3 supplements work in perfect synergy for nutritional balance and cardiovascular health
- Synergy's scientists at The Hughes Centre for Research and Innovation, create powerful and unique product formulations – independently reviewed clinical studies confirm safety and efficacy
- All ingredients sourced and every batch tested for purity, quality and potency
- Synergy follows Good Manufacturing Practices and NSF certified

90 Day Challenge - 100% money back guarantee, if after 90 days V3 doesn't make a difference to you.

Avoid ProArgi-9+: within 6 weeks of myocardial infarction or if known to suffer with hypotension (low blood pressure).
